COMMENTS FROM THE TOWN MANAGER'S OFFICE

The Bethel Savings Bank is sponsoring a warming shelter for schoolchildren to use while they wait for the school bus. The shelter is located on Route 2 in the Steam Mill or Skillington section of town. I believe there is advertising space available on one side of the shelter if a business in town would like to help support the rental of the shelter. The buildings are very helpful in that the children are kept away from the traffic of the road and they are sheltered some from the cold wind.

The Bethel Fire Department Payroll for 1964 will be paid this week. The payroll this year is \$2,289.75 this year which is about eleven dollars less than last year. The biggest help this year is the extra money received from surrounding towns for fires answered in their towns. The Bethel Fire Department does an excellent job in getting to fires in a minimum of time and getting the fire under control in a comparatively short time. The town is very fortunate to have a dedicated fire department that does a very good job. An application has been made to the State C. D. through the County C. D. office to get a large truck tractor and trailer for use by the fire department. The County C. D. Director has informed me that the town stands a pretty good chance of getting one. The two small tank trucks do a very good job on out of town fires and one large tank would be a great help to the town and to the fire protection for the area not covered by hydrants. A supply of four or five thousand gallons of water could be moved to the site of a fire and that amount of water would be enough to control quite a large blaze.

The first large snow storm arrived this past week end with it came equipment troubles. The repairs necessary on the truck were relatively minor and are about all corrected or repaired. The grader problem is a major one and is yet to be solved. The anti-freeze from the radiator got into the diesel motor and as most people know it is a very serious and costly problem. The repairs on the motor will run far in excess of a thousand dollars and could reach two thousand dollars.

FHA SUPERVISORS DISCUSS "ELFAC"

Elwyn R. Morrow, Farmers Home Administration County Supervisor for Oxford County, met with other supervisors from York, Cumberland, Androscoggin, Kennebec and Somerset at Auburn on December 2 to discuss "ELFAC". "ELFAC" is electronic farm accounting through the Extension Service which make for a better and more complete bookkeeping system for farm families.

Lewis Clark, Extension Farm Management Specialist from Orono led the discussion on "ELFAC" and was assisted by Extension Area Dairy Specialist Henry Cook of Bangor and Chadwick Ames of Augusta.

Mr. Morrow felt this system of bookkeeping would help Farmers Home Administration clients with their "year end analysis" and any farmer who might be submitting records for a loan application.

Winter Street, Norway, will purchase and made available for hospital expansion.

Student Hills School District will conduct an adult evening school class in beginner's typing. The classes will begin Jan. 1 and continue thru March 10 according to Myron Pierce, Business Education instructor in Oxford Hills High School.

The Editor
The Bethel Citizen
Bethel, Maine
Dear Sir:

During the past two or three weeks, there seems to have been much to do over nothing in regard to the office for the superintendent of school union 22. Whether the problem was caused by the various school committees in the union, the superintendent, private enterprise or whatever, is of little consequence.

The facts of the situation are:
1. The Bethel School Committee recently voted not to make space available to Union 22 for superintendent's offices.
2. The town of Bethel pays 42% of the cost of maintaining

GOULD'S SKI PROSPECTS QUESTIONABLE

Although Gould's ski teams don't swing into action before the first of the year regular conditioning practice sessions have been held for more than a month.

Boys' coach Paul Kelsey, 13 years at the helm, seems to have run into a rebuilding year. With only a half-dozen lettermen back from a squad which had only a so-so record last winter, the team is full of question-marks.

Captain Ray Saunders, Warren Tibbetts and Mike Bates are Nordic lettermen around whom that squad will be built. Other returnees are Robert Remington, Rodney Swain, Jack McMillin, Mike Tibbetts and Dave Carter. Vaughn Damone and Bruce Lane from last fall's championship cross-country team, and freshmen Larry Fox, Joel Morgenstern, Ted Jackson, Dick Paine and Jay Thompson will all be trying to find themselves a place on the team.

In the Alpine events three lettermen will form the nucleus of the squad. Steve Moore, Jack Brooks and Ken Remsen will have competition from returnees Paul Vachon, Dave Thurston, Gene Tibbetts and Don Dixon. A particularly encouraging development is the appearance of several new men. Glen Langley, a seasoned Junior racer who finished well up in last year's Squaw Valley races, and Russ Hunter, another experienced racer, are new on campus. Other out-of-town boys who will be closely watched are Stan McKnight, Rick Harding, Jim Caspell, Jon Mininni, and Oliver Cole.

Boys' schedule: Jan. 9, open; Jan. 16, Holderness School at Gould; Jan. 22-23, at Edward Little High School; Jan. 29-30, Kennett High School at Gould; Feb. 5-6, open; Feb. 12-13, open; Feb. 19-20, State Meet (tentative).

The girls' team promises to Monmouth Academy Friday, Jan. 22, Mechanic Falls at Gould.

Tuesday, Jan. 26, Gould at Leavitt Institute Friday, Jan. 29, Gould at Buckfield

the superintendent's office. The other towns in the union collectively, pay the remaining 51%.

3. The town of Bethel has for sale, a centrally located unused school building that for a relatively small sum (heating, etc.) could be made available to rent to Union 22.

I am presenting these facts to you in the hope that you will pass them on to your many readers for whatever they may be worth.

20 SECONDS WITH THE NAZARENE

In giving a lecture on flame a scientist once made a most interesting experiment. He wanted to show that in the center of each flame there is a hollow—a place of entire stillness—around which its fire is a mere wall. To prove this he introduced into the midst of the flame a minute and carefully shielded charge of explosive powder. The protection was then carefully removed. No explosion followed! A second time the experiment was attempted, and by a slight movement of the hand the central security was lost and an explosion was the result.

Our safety, then, is only in stillness of soul. O God, make us children of quietness.

Senior Co-Captains Laurel DesRoches of Darien, Conn., and Barrie-Joe Johnson of Wayland, Mass., are both strong Giant Slalom performers. Seniors Joy Moore of Cresson, Pa., Mary Steidl of Nashua, N. H., and Karen Young of Dixfield are also veterans of last year's team.

Five Juniors are on the squad. Carolyn Corner of Edmondston, N. B., Beverly Kelly of Bridgton and Laura Sawyer from Lewiston are veterans and are joined by newcomers Jonnie Lechrie of Dixfield, Pa., and Jane Hoeve, a prominent Junior racer from Waterville.

A trio of local sophomores who are products of the Sunday River Junior Training Program are sure to figure prominently in Gould's ski fortunes; they are Heidi Glines, Beth Sargent and Eileen Saunders. They are joined on this year's promising team by newcomer Claudia Samson from Thomaston, Conn.

The team is managed by Anne Seribner, a senior from Stratton and is coached by Julian Thompson of the faculty and Uel Gardner, of Sunday River Skiway.

"A MAJORITY ONCE KNEW THE WORLD WAS FLAT"

The Supreme Court decision holding that all state legislatures—the upper as well as the lower houses—must be apportioned solely on the basis of population hit the states like a bombshell. And it is going to keep on exploding for a long time to come.

For all of our history, it has been common for the states to apportion their House of Representatives on a population basis and their Senates on a geographical basis, such as by counties. In this they have simply followed the federal system, as laid down in the Constitution, in which each member of the lower house represents about the same number of constituents, while every state is allowed two Senators without regard to population.

Unless this court decision is negated—and a constitutional amendment, apparently, is the only way to do that—the big centers of population will almost completely dominate state government, at the expense of the rural areas and rural people. Their problems and needs, which often are different from those of the cities, will be submerged and their voices largely stifled. A braking power on the excesses of numerical majorities will be lost.

The argument for this revolutionary reapportionment is that the majority should rule. Washington columnist Patrick Fox had something impressive to say about that: "If a simple majority were always right, there would be no problem in letting it vote its way immediately on everything."

"But a majority once knew the world was flat. A majority opposed the American revolution."
